

Practical AI Coaching & Consulting

Hands-on implementation, advice, & support

At Agentic Intelligence, we help organisations harness the power of artificial intelligence through training workshops, customised tools, and the creation of smart systems that deliver real business outcomes.

◆ Artificial Intelligence Coaching

4 x 45-minute Weekly or 2 x 90-minute Fortnightly sessions, in-person or over Zoom

- Build an AI **capability roadmap** aligned with your business goals
- Identify where AI can **replace vs. augment** roles in your org
- Develop experiments to test AI tools in **real workstreams**
- Explore **autonomous agents** and how they can run multi-step tasks
- Understand the limits of current agent capabilities—and **how to work around them**
- Design, test, and refine **simple agent frameworks** tailored to your business ops
- Get **1:1 guidance** on turning promising experiments into sustainable systems

Recurring fee: \$3,000 + GST per month

Single session: \$750 + GST

◆ Half-Day Consulting Series

4 x Half-day (3.5-hour) weekly consulting sessions, in-person, or over Zoom or Teams

- Rapidly prototype **real AI solutions** to your most pressing challenges
- Co-design **custom AI strategies** aligned with your operations and constraints
- Create **internal AI playbooks** and SOPs to scale adoption
- Help you spot and execute **quick-win, high-impact** AI projects
- Build **data pipelines & internal knowledge bases** for smarter, faster decisions
- Train your team in **prompt engineering & effective use of AI tools**
- Advise on **selecting and deploying** the right tools tailored to your organization's unique culture, goals, and resources

Recurring fee: \$9,000 + GST per month

Single session: \$2,500 + GST

◆ AI Training Workshops (90 mins each)

Choose topics from a range of interactive training workshops to suit the needs of your team. *Fixed fee: \$1,000 + GST per session*

- Prompt Engineering Techniques
- AI for Marketing and Customer Engagement
- AI for Sales and Customer Service
- AI for Communications
- AI for Productivity
- AI for Innovation and Creativity
- Create an Internal Knowledge Database
